

IMPACT REPORT 2021

A U S T I N
diaper bank

PROVIDING DIAPERS AND OTHER BASIC NEEDS FOR CENTRAL TEXAS FAMILIES

★

Founded in 2013, the Austin Diaper Bank is the only organization in Central Texas focused on providing diapers, wipes and period supplies to families in our community living in poverty. 1 in 3 families in Central Texas report going without enough diapers each month. While the reasons for diaper need are great, the mission of the Austin Diaper Bank is simple. We provide diapers, wipes, and period supplies to thousands of families each year so they can live healthy vibrant lives.

★

Austin Diaper Bank had a 2021 filled with new milestones, new challenges, and the opportunity to serve more of our Central Texas community and beyond.

We began the year with a move to our new warehouse, which enabled us to nearly double our monthly diaper distribution capacity. Before we had a chance to settle in, a natural disaster struck – Winter Storm Uri left much of the city without power and water for days. As we have during past natural disasters, the team at Austin Diaper Bank stepped up to the challenge and distributed over 200,000 items to help families recover. We also reached beyond the borders of Texas to send over 50,000 diapers to families in Louisiana impacted by Hurricane Ida in late summer.

In June, our Board of Directors and staff came together for a strategic planning session to chart our course for the next several years. Our five areas of focus encompass program reach, long-term financial sustainability, community outreach, staff development and board diversity.

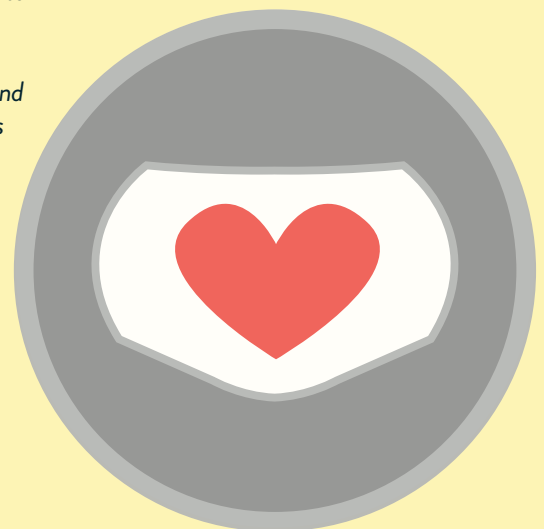

In September, we celebrated National Diaper Need Awareness Week and hosted our annual Austin Diaper Bank Bash as a reimagined outdoor, family-friendly affair, with over 150 attendees. We ended the year with community engagement through Giving Tuesday, our December “Give the Gift of Diapers” initiative and another big milestone – the purchase of a cargo van. For the first time ever, we can deliver and pick up diapers, wipes and period supplies throughout our community, an investment that will help families for years to come.

All in all, we distributed more than 1.4 million diapers, 367,000 period products and 20,000 baby wipes in 2021. It would not have been possible without the generous support of our volunteers and donors, along with the tireless passion and dedication of our small but mighty staff of four. As families combat the rising cost of diapers during a third year of COVID-induced uncertainty, the Austin Diaper Bank is well equipped to make an even greater impact in 2022.

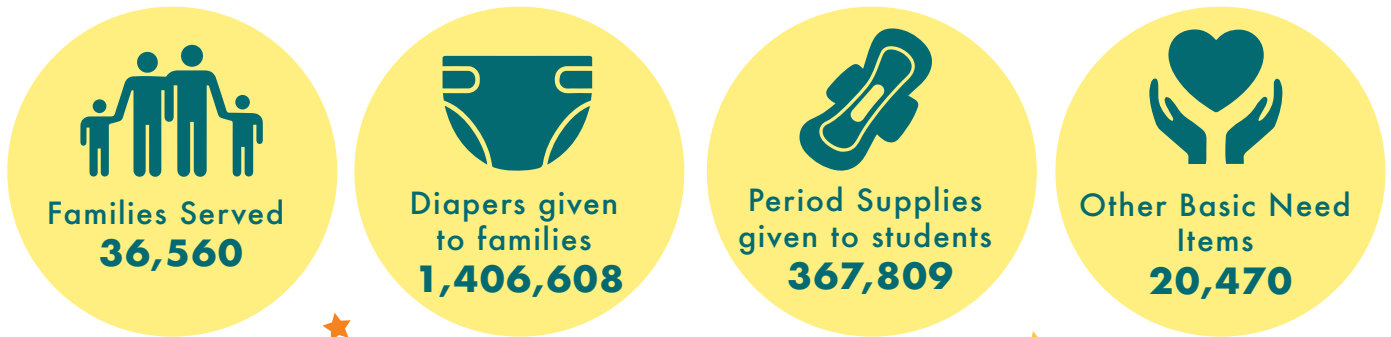

From the bottom of my heart, thank you for your continued support.

We know period supplies are school supplies. We are committed to providing period supplies to students in Austin and surrounding communities so they can participate fully in their daily lives, no matter the time of the month. Our Bright Spot program supports more than 15,000 students each year and allows them to focus on school, activities and their friends and not their period.

In 2021 we continued growing our Bright Spot program in Austin area schools and added a partnership with the Boys of Girls Club of Austin. Bright Spot is supporting students at Burnet Middle School, Lively Middle School and Navarro Early College High School and 9 other schools through the Communities In Schools Program.
